

Talbot County Family Connection Seeks Community Input

Talbot County Family Connection and community partners are conducting a community assessment to help determine the resources, programs and activities that are needed in Talbotton, Talbot County and outlying communities. A group of community leaders have worked together to develop a community survey. The survey is being emailed to local citizens by partners such as the school system, local government, the faith community, and nonprofit organizations.

The survey can be accessed at <https://bit.ly/TalbotSurvey>. The survey can be completed on a smart phone, device such as an iPad, or a computer. Local organizations or churches who want paper copies of the survey can contact Dot Bass, Family Connection coordinator, at bass1951@gmail.com to get copies. The survey can also be accessed through scanning a QR code with a smart phone:
